### PROFILE

Full Stack Web Developer with a background in business administration and communication. Excited to combine a passion for people and skills in development to provide effective solutions that go above and beyond the expectations of my users. Ready to utilize my skills in JavaScript, CSS, and HTML to further improve my users lives through web based development that is efficient, consistent, and aesthetic. Excited to grow my skills, and continue to pursue new ones, while working with a great team to accomplish our collective goals.

### EXPERIENCE

#### IT AND LOGISTICS MANAGER

Design Source Flooring | Feb 2020 - Current

Manage the IT department, handles all company logistics. Develops all Web Applications needed by the company. Maintain day to day IT operations, as well as heads large scale technology changes and improvements within company.

#### PRODUCTION COORDINATOR

Design Source Flooring | Jan 2019 - Jan 2020

Responsible for work tickets from initial bidding, creation, and eventually to final closing and billing. Used Data Analysis and Data Entry to provide completely accurate reporting to upper management.

#### IT SUPPORT SPECIALIST

Gorilla Geeks IT Services | Jan 2015 - Feb 2017
